

企业简介

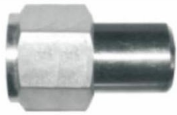

ENTERPRISE BRIEF INTRODUCTION

Tanggong Valve Group was founded in 1990 with a registered capital of 468 million. The group has nine subsidiaries: Fuding Tanggong Valve Casting Co., LTD., Tanggong Automatic Control Valve Co., LTD., Shanghai Changkai Valve Co., LTD., Zhejiang Arrow Valve Co., LTD., Tanggong E-commerce Co., LTD., Ningxia Fules Industry and Trade Co., LTD., Inner Mongolia Haiyufeng Products Co., LTD., Jiaying Haoning Import and Export Co., LTD., Yugong Flange Fittings Co., LTD. Is a valve research and development, production, sales in one of the valve professional manufacturing enterprises, located in the East China Sea, located in the "China valve city" - Wenzhou Longwan District, the company covers an area of 175,000 square meters, construction area of 204,900 square meters. There are more than 2,200 employees, including 80 senior engineers and 687 professional and technical personnel. The company has a perfect CAD computer design center, with modern machining center, CNC machine tool processing center, material inspection and chemical analysis laboratory, pressure test and other equipment more than 1500 sets (sets), complete equipment, performance testing and pressure test procedures perfect.

The company's products have complete specifications, novel structure and exquisite workmanship. The main products are gate valve, check valve, check valve, ball valve, butterfly valve, electric valve, pneumatic valve, American standard valve, fluorine-lined valve, all-welded ball valve, vacuum valve, regulating valve, high temperature and high pressure power station valve, forged steel valve, natural gas special valve, hydraulic control valve, high pressure needle valve, instrument valve, valve group, air source ball valve, valve pipe fittings, flange, high pressure forged pipe fittings, (titanium, titanium, titanium, titanium, stainless steel, stainless steel. Nickel, zirconium) special valves and other products. The main material of valve is HT, QT, WCB, WC1, WC6, WC9, LCB, CF8(F304), CF8M(F316); CF3(F304L), CF3M(F316L), duplex stainless steel, Monel alloy, titanium alloy, nickel alloy, zirconium alloy, etc. Use pressure 0.1MPa~42MPa(1500LB~2500LB); Operating temperature -196℃~730℃; Nominal caliber DN6mm~4000mm; The driving mode is manual, electric, hydraulic, gear transmission and so on. Products implement GB, JB, HG, API, ASTM, ANSI, JIS, CE, ISO and other domestic and foreign standards, but also according to customer requirements for non-calibration.

"Survival by quality, development by science and technology" as the purpose. Operate in strict accordance with the international quality management system. It has obtained ISO9001 international quality system certification, ISO14001 environmental management system certification, ISO45001 Occupational health and safety management system certification, ISO10012 measurement management system certification (AAA level), after-sales service maturity certification, pressure pipeline components manufacturing license TS-A1 level, a number of invention patent certificates, API 6D, API600, API602, API609, API607, API624, ISO15848 product certification, Electric actuator and pneumatic actuator explosion-proof certificate, EU CE certification, CCCF certification, drinking water sanitation and safety product certificate, international quality certification, high-growth industrial enterprises, gazelle enterprises, international quality certification, national self-operated export rights, China integrity bidder certificate, China Valve City leading enterprises, Zhejiang Province trademark brand strategy demonstration enterprises, Zhejiang Province "Hidden champion" Pei 涓 enterprises, specialized and special new enterprises, specialized and special new small giant enterprises, provincial Enterprise Technology Research Institute, Zhejiang Province credit Management demonstration enterprises, Zhejiang AAA level contract and trustworthy enterprises, National high-tech enterprises, safety production standardization three-level enterprises, Longwan District Governor Quality Award, China Chemical Engineering Sixth Construction Co., LTD. Supplier of China National Chemical Group, qualified supplier of China Nuclear Group, supplier of China Huadian Group, supplier of China Guodian Group, supplier of China Datang Group, supplier of Sinochem Blue Sky, member of Sinopec Material Level network, excellent supplier of Inner Mongolia Yitai Group Co., LTD., member of Valve Branch of China General Machinery Industry Association, Vice president unit of China Valve City, China Valve City Excellent enterprise, member unit of China Gas Association, China Resources Power Supplier, member unit of Beijing Energy Bidding Network, supplier of Huajie Power Materials Network, member unit of Chenlong Purchasing Network, supplier of Shenhua Guoneng Group, member unit of Procurement and bidding network, member unit of Shenhua Bidding Network, Chinese People's Property Insurance enterprise, AAA credit enterprise of bank, honest private enterprise, Wenzhou private enterprise vice president unit and many other honors. Cooperate with relevant research institutions to establish a modern valve research and development center, for customers to design and develop new technologies, new processes of special supporting products and non-standard products. The products are widely used in petroleum, chemical industry, natural gas, fertilizer, metallurgy, pharmaceutical, electric power, mining, construction and other industries. And is committed to developing the international market, products are exported to Europe, the Middle East, Southeast Asia and other more than 20 countries and regions. Products with excellent quality, ideal price; Complete variety and timely delivery and satisfactory pre-sale, sale, after-sales service has won the majority of users rely on and praise.

"Adopting high-tech, strict system management, developing quality products, striving for first-class brand" is our eternal pursuit. We sincerely welcome new and old customers at home and abroad to visit and guide!
